PROFESSIONAL SUMMARY

Results-driven Frontend Engineer with a strong foundation in modern web development technologies and expertise in building interactive, scalable, and user-centric web applications. Proficient in JavaScript, ReactJS, and CSS frameworks, with a proven track record of improving user experience and application performance. Adept at collaborating in agile environments and driving innovation in fast-paced settings.

EDUCATION

Sri Venkateswara College of Engineering and Technology, Chittoor   **[2023]**

Bachelor's of Technology in Electronics and Communication Engineering – 8.21

SKILLS

- **Programming Languages:** JavaScript (OOJS), Java, Python
- **Web Technologies:** HTML, CSS, Bootstrap
- **Database Management:** SQL, MySQL
- **Frameworks & Tools:** React JS, Git, GitHub, SaSS
- **Additional Skills:** API Integration, Agile methodologies, CSS Architecture Design, CCNA

PROJECTS

School Management System   **Oct 2024 – Dec 204**

- Developed a school management system using Java, JDBC, and SQL to efficiently manage student data, attendance, and grades. Achieved a 95% reduction in data retrieval times and a 90% improvement in overall system performance.
- Implemented role-based access, ensuring 100% compliance with user requirements and minimizing response times by 85%. User testing resulted in a 92% satisfaction rate, highlighting the system's usability and functionality.

E-commerce Mobile Website, Kawasaki Clone, Amazon Clone   **Dec 2023 – April 2024**

- Designed and implemented a responsive e-commerce website, optimizing layouts with HTML, CSS, JavaScript, and DOM Manipulation for consistent functionality on all devices.
- Leveraged CSS media queries to achieve device compatibility, increasing responsiveness by 25% and reducing page load time by 15%.   *github.com/Dinesh* ⬈

INTERNSHIP

Java Full Stack Intern   **Jan 2024 – Sep 2024**
J Spiders, Bangalore

- Developed interactive, user-centered web applications using HTML, CSS, Bootstrap and JavaScript, React.js resulting in a 30% improvement in user engagement and session duration.
- Enhanced back-end functionality by implementing Java, Java 8, JDBC and SQL, Postgres SQL for efficient data processing, reducing data retrieval time by 20%.
- Collaborated with UI/UX teams to integrate visually appealing interfaces, achieving a 30% reduction in bounce rate through optimized design.
- Utilized Agile methodologies to coordinate with cross-functional teams, completing projects 20% faster than expected timelines.

CERTIFICATIONS

- Java Fullstack Development – Besant Technologies
- Web Development - Coursera, Microsoft, Google Agency
- Python Programming - Coursera
- Cisco Certified Network Associate (CCNA) – Cisco
